

All supplied with 1 metre lead and mini plug.

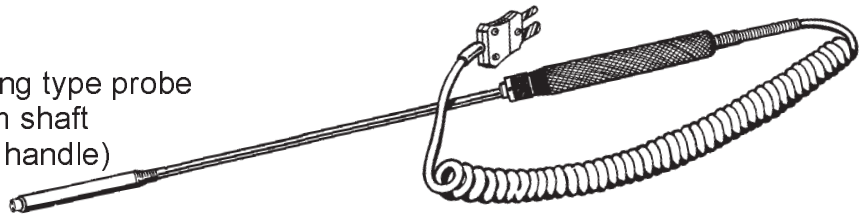

### HIGH TEMPERATURE SURFACE/AIR

0267 -80°C to 800°C Heavy Duty  
Dimensions: Ø20mm tip, Ø5mm shaft  
Shaft length: 270mm (incl handle)

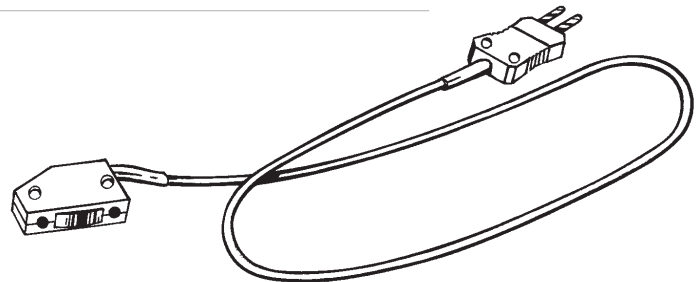

### SURFACE TEMPERATURE

0796 -50 to 600°C Small area welding type probe  
Dimensions: Ø9mm tip, Ø5mm shaft  
Shaft length: 300mm (125mm handle)

### MAGNETIC SURFACE

0670 -20 to 150°C  
Fast response.  
Plastic casing.  
(Pat. No 132161)

0264 -70 to 300°C  
Fast response.  
20mm diameter.  
Aluminium casing.

### CLAMP SURFACE

0522 -70 to 300°C  
Fast response.

Certification of Temperature available

All supplied with 1 metre lead and mini plug.

### GENERAL PURPOSE

**Immersion Probe** for liquids and gases.

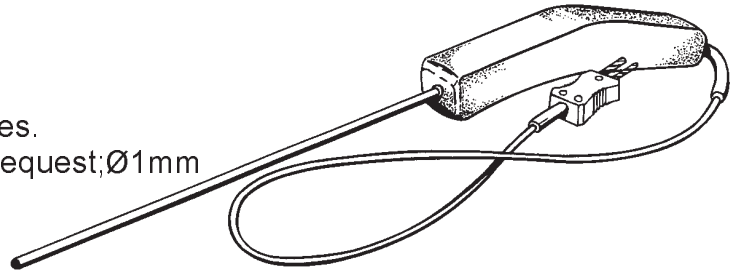

Dimensions: Ø3mm available and on request, Ø1mm

0259 Shaft length: 200mm

0260 Shaft length: 300mm

0261 Shaft length: 600mm

**-200 to 1000°C**

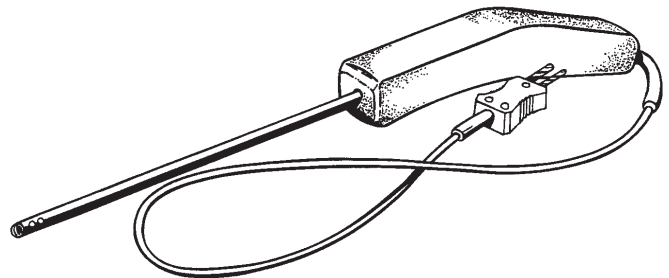

0262 **Air Temperature Probe** for gases.

Dimensions: Ø3mm shaft

Shaft length: 175mm (90mm handle)

**-70 to 350°C**

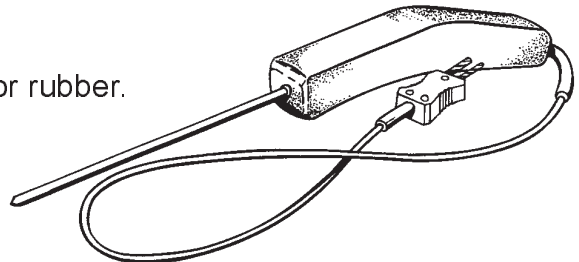

0263 **Penetration Probe** for semi frozen meat, food or rubber.

Dimensions: Ø3mm shaft, 30° point

Shaft length: 150mm (90mm handle)

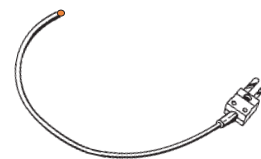

**-100 to 850°C**

0517 **Teflon Coating High Temp Thermocouple Cable**

Length to your requirement

**-70 to 205°C**
