

## HARDNESS

### Application

- Indentation hardness of Rubbers, Polyurethane, Neoprene, Silicone, Felt, Vinyls, Wax and Leather.
- Production line testing; during manufacture, especially mass produced components.
- In difficult to access locations, or in confined spaces.

### Features

- Measurement of Shore A scale
- Digital display
- Small, Hand-held
- Average and Max values
- RS232 output
- Auto power shut off
- Low battery warning
- Complies with the requirements of ISO 7619, DIN53505 and ASTM D2240

### Specifications

Range: 0 to 100 HA  
Accuracy:  $\pm 1$  HA (20 to 90 HA)  
Resolution: 0.1 HA

Operating Temp: 0 to +40°C

Dimensions: 165 x 27 x 27mm  
Power: 3x 1.55v batteries  
Weight: 145g
